REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a steam kettle lid wherein a pin is inserted into aligned openings of a boss of the elongated arm and the projection of a lid such that the cross sectional size of the pin allows for movement other than pivotal movement of the projection and lid in multiple directions relative to the pin.

The cited reference of Gabriele et al. (U.S. 4,746,030) and Pardo (U.S. 4,498,695) are similar to the claimed invention because they teach an elongated arm with openings that align with openings of the lid projection. Neither reference teaches that the lid and projection can move in multiple directions other than pivotal movement relative to the pin.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. In order to reduce pendency and avoid potential delays, Technology Center 3700 is encouraging FAXing of responses to Office Actions directly to (703)872-9306.
